

Monthly Investment Report

As of August 30, 2015

This report presents the City's investment portfolio as of August 30, 2015. It includes all investments managed by the City on its own behalf. The report provides information on the institution, investment type, purchase and maturity date, value, yield for each security. As of August 30, 2015, the investment portfolio was in compliance with all State laws.

Current Portfolio Summary. Short-term excess cash is currently invested primarily in the Washington State LGIP and in the Clark County Investment Pool. Both investment pools are very high quality investments in terms of safety and liquidity. The Clark County Investment Pool is longer in average duration than the Washington State Local Government Investment Pool and therefore the current yield is slightly higher on the Clark County Investment Pool than the LGIP. The City has most of the cash required for immediate liquidity in the Clark County Investment Pool.

The City also has 93% of its investments longer term in federal agency securities this allocation. The total federal agency securities have an unrealized gain as of August 30, 2015 of \$45,425. An unrealized gain is the amount of funds the City would receive if the City sold the securities on the reporting date. In other words, the market price on the report date was higher than the price the City purchased the securities at. The City's portfolio has a number of callable securities. The City's strategy will continue to be laddering maturities with callable securities.

The City also has a second investment portfolio for the bond reserve funds for 2015 Water-Sewer Revenue Bond. These proceeds were invested in a municipal security of \$205,605 with an unrealized loss of \$470.

The City issued limited general obligation bonds and invested the proceeds in a third portfolio. These proceeds were invested in the Clark County Pool and federal agency securities. This portfolio has an unrealized loss of \$11,563. An unrealized loss is the amount of funds the City would not receive if the City sold the securities on the reporting date. In other words, the market price on the report date was lower than the price the City purchased the securities at. These securities are non-callable and laddered to meet cash requirements of the capital projects.

The following is a summary of the City's investments based on recorded value as of August 30, 2015 compared with the prior month:

	August 30, 2015	September 30, 2015
Investments held by the City	\$16,643,924	\$17,057,082
Investment of Bond Reserve Funds	\$205,974	\$205,974
Investments of GO Bond Proceeds	\$6,363,359	\$6,154,781

Summary of Activity for the Month and Future Liquidity In month of August, revenues exceeded expenditures, with state loan draws and grant proceeds.

The City has a Line of Credit which assists the City in enhancing its liquidity during very large capital project seasons. With the Line of Credit, staff is able to better manage cash flow needs of the City. In addition, we continue to believe the portfolio contains enough liquidity to meet the next six months of expected expenditures by the City.

Report Contents and Distribution. This report includes the following three schedules on the City's portfolio as of August 30, 2015: summary of investments held by the City; summary of investment portfolio liquidity; and detail of each investment. A listing of the individuals that routinely receive this report is provided at the end of the report.
