

Monthly Investment Report

As of February 28, 2015

This report presents the City's investment portfolio as of February 28, 2015. It includes all investments managed by the City on its own behalf. The report provides information on the institution, investment type, purchase and maturity date, value, yield for each security. As of February 28, 2015, the investment portfolio was in compliance with all State laws.

Current Portfolio Summary. Short-term excess cash is currently invested primarily in the Washington State LGIP and in the Clark County Investment Pool. Both investment pools are very high quality investments in terms of safety and liquidity. The Clark County Investment Pool is longer in average duration than the Washington State Local Government Investment Pool and therefore the current yield is slightly higher on the Clark County Investment Pool than the LGIP. The City has moved the cash required for immediate liquidity over to the Clark County Investment Pool.

The City also has 94% of its investments longer term in federal agency securities this allocation. The total federal agency securities have an unrealized gain as of January 31, 2015 of \$10,874. An unrealized gain is the amount of funds the City would receive if the City sold the securities on the reporting date. In other words, the market price on the report date was higher than the price the City purchased the securities at. The City's portfolio has a number of callable securities. The City's strategy will continue to be laddering maturities with callable securities.

The City also has a second investment portfolio for the bond reserve funds for Wastewater Treatment Plant Construction Project. These proceeds were invested an Auburn, WA Revenue Bond of \$205,974.

The following is a summary of the City's investments based on recorded value as of February 28, 2015 compared with the prior month:

	January 31, 2015	February 28, 2015
Investments held by the City	\$16,553,190	\$15,673,298
Investment of Bond Reserve Funds	\$205,974	\$205,974

Summary of Activity for the Month and Future Liquidity In month of February, expenditures exceeded revenues, with large capital expenditures for 38th Ave and Friberg construction. The City established a Line of Credit with Bank of America. The Line of Credit will assist the City in enhancing its liquidity during very large capital project seasons. With the Line of Credit, staff will better manage cash flow needs of the City. In addition, we continue to believe the portfolio contains enough liquidity to meet the next six months of expected expenditures by the City.

Report Contents and Distribution. This report includes the following three schedules on the City's portfolio as of February 28, 2015: summary of investments held by the City; summary of investment portfolio liquidity; and detail of each investment. A listing of the individuals that routinely receive this report is provided at the end of the report.

Market and Recorded Value

It is the City's policy to report purchase price as the market value for all investments with an original maturity of less than one year. For investments with an original maturity of more than one year, the City records any changes in market value annually at the end of the fiscal year. Accordingly, the "recorded value" in this report for an investment with an original maturity of more than one year is its market value as of December 31, 2013.
