

NE EVERETT STREET

NE LAKE ROAD

# Online Community Survey Summary

From February 22 to March 11, 2019, an online survey captured community members' input on existing conditions and the future intersection design.

**1,108 people participated in the survey.**

46%

of respondents use the intersection every day

38%

Use multiple modes to cross the intersection

100% drive

33% walk/run

19% bike

Why do you use the intersection?

**“Reduce traffic congestion, maintain traffic flow during construction, and improve traffic safety.”**

Were the highest-rated responses when evaluating the criteria used to assess the intersection alternatives, with approximately **half of respondents** rating them each as highest importance.

What we've heard so far...

reduce long wait times    accommodate growth    provide bicycle access

**implement pedestrian safety**    add center turn lanes

add sidewalks    minimize impacts to wetlands    reduce traffic congestion

**protect our environment**    minimize construction delays    build safe crossings

provide roundabout usage education
