

INFORMATION

FOR PARENTS

The **purpose** of the Camas Public Library's Summer Reading Program is to encourage children and teens to read during their school break. Youth who read during the summer will practice their reading and comprehension skills, and are likely to start school in the fall more prepared.

We **measure** reading time rather than number of pages or books. With this method, youth of all ages and abilities can accomplish their reading goals with comparable effort.

We may take **pictures** at our events for our blog, website, etc. Please tell a staff member at the event if you don't want your or your child's photo taken.
